Hi,

I've been checking out the case details (a bit) and think that the current Proposed Final Judgment needs to be strengthened. A few of the definition could be strengthened. An example is Section III. A. 2. which should also incorporate computers with a non-Microsoft OS.

This current settlement does not seem to punish Microsoft as noted by Steve Jobs [<http://www.wired.com/news/antitrust/0,1551,48660,00.html>].

The poor practices of this company should stop.

Peter
